

NATIONAL NONPROFITS

Connecting nonprofits
with talented managers
and executives
nationwide

Our Mission

National Nonprofits is a socially conscious company committed to helping the nonprofit sector thrive in the United States.

Why Nonprofit Jobs

We recognize the essential role nonprofits play in providing food, healthcare, housing, education, legal services, and quality of life through arts and culture - to millions of people. Without a vibrant nonprofit sector, many basic human needs would not be met. Great talent is key to helping nonprofits be successful in their mission.

Helping Employers

Employers are able to create an account, personalized Careers page and access their recruiter dashboard; all for free. They can get started with a 14-day free trial and post unlimited jobs during that period.

Helping Job Seekers

Benefits for job seekers include a quick application process (candidates need only upload their resume once, craft a quick cover letter, and click 'Apply'), customized job alerts, and a free account with all of their job applications and communications history.
